## 1934 CATALOGUE

**OROL LEDDEN & SONS**

Store Opposite Penna. Railroad Station

The Largest Growers and Shippers of Tomato,  
Cabbage, Pepper and Celery Plants in New Jersey

**SEWELL, N. J.**

Bell Phone, Wenonah 400

Western Union Telegraph at  
Sewell Station

## **TERMS**

Cash must accompany all orders. Otherwise goods will be shipped C. O. D. Send check, postal money order, express money order or registered letter. You are protected by our safe delivery guarantee.

No charge for packing, boxes, or bags except two-bushel seamless bags will be charged at 30 cents each when seeds are sent in quantity.

We guarantee all plants to be grown on our Sewell farms. We grow and handle nothing but the best seed obtainable. No seed that we know is of poor germination or inferior in any way is allowed to be sold.

The fact that no reputable seedsman now warrants seeds in any respect being well known, renders it unnecessary for us to say very much on this point, as it must be apparent to every intelligent person that no seedsman can afford to send out poor or worthless seeds. There could be no more certain way of destroying his business. We beg to append the following notice:

While we exercise the greatest care to have all seeds, plants and bulbs pure and reliable, we give no warranty, expressed or implied, as to description, purity, productiveness, variety or any other matter of any seeds, plants or bulbs that we send out; and we will not in any way be responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

All prices quoted in this catalogue are subject to change without notice.

**OROL LEDDEN & SONS.**

## **SAFE DELIVERY GUARANTEED**

All plants and seeds are guaranteed to arrive in first-class condition. If not, mail carrier or expressman should be notified on delivery. If damaged, request him to make notation of damage, sign and mail to us at once and more plants or seeds will be forwarded or money refunded.

## **PLANTS**

We are plant growers and not plant dealers. Every plant we send out is grown by us on our Sewell Farms. Nothing but first-class plants raised from carefully selected seed will be sent out.

We annually ship thousands of mail orders to eastern states including all states east of the Mississippi River. The bulk of our orders going into N. J., Pa., N. Y., Del., Md., Ohio, Va., and the New England States. Our careful packing and the condition of plants give our customers the best of satisfaction.

We have five large greenhouses heated by hot-water heat for early plants. These houses are devoted to the growing of pepper, egg plant and tomato plants. Also eight hundred sash for cold-frame beds for spotting or raising plants. The greater part of our plants are hardy, field-grown, planted and farmed by machine in 12-inch rows. These field-grown plants are strong and healthy, raised from the highest-grade seed and will give best of satisfaction.

All plants shipped will be carefully packed in moss, in cartons, boxes or crates and sent by parcel post or express.

We are located in our Stucco Store, on concrete road, opposite Sewell station which is 12 miles below Camden on the W. J. & S. S. R. R. Electric branch of the Pennsylvania R. R. to Atlantic City.

We welcome customers and friends at our farms and shall be glad to show our plants and seeds. Trains run every hour in the middle of the day and every 15 or 30 minutes in the morning and evening. To come by auto—Camden or Gloucester to Woodbury to Mantua, left two miles to Sewell. From South Jersey points come by way of Glassboro, take Woodbury road and turn to left at Sewell. Roads are concrete.

**The largest growers of Tomato, Cabbage, Pepper and Celery Plants in N. J.**

---

## **PLANTS**

### **BEET PLANTS**

**Plant May 15th to July 1st**

**Crosby Egyptian and Detroit Dark Red.** These are the two best varieties for table use. We sow several times so as to always have plants the right size.

Postage prepaid. 25, 20c.; 100, 50c.; 500, \$1.75; 1,000, \$2.50; or by express or parcel post, f.o.b. Sewell, 1,000, \$2.00. At our farms, 25, 10c.; 100, 25c.; 1,000, \$2.00.

### **BRUSSEL SPROUTS**

**Plant May 20th to August 1st**

A variety of cabbage, producing from 50 to 100 heads on stem or stalk. Delicious in flavor, hardier than cabbage. Plant same as cabbage.

**Long Island.** Postage prepaid. Dozen, 20c.; 100, 50c.; 500, \$1.75; 1,000, \$2.75; or by express or parcel post, f.o.b. Sewell, 1,000, \$1.50; at our farms, dozen, 10c.; 100, 25c.; 1,000, \$1.50.

### **CAULIFLOWER**

**Plant May 15th to August 1st**

**Early Snowball.** This is the best variety, postage prepaid. Dozen, 25c.; 100, 60c.; 500, \$2.00; 1,000, \$3.50; or by express or parcel post, f.o.b. Sewell, 1,000, \$3.00; at our farms, dozen, 10c., 100, 35c.; 1,000, \$3.00.

**Late Cabbage Plants—A partial view of twenty-seven acres of plants**

## **CABBAGE**

**Plant May 10th to August 10th**

We annually grow large fields of cabbage plants for kraut packers and farmers. We have shipped 1,500,000 cabbage plants in five days. Several sowings are made throughout the season in order to have plants that are the right age at any time during the season. We make a point to have as healthy plants as possible. We have all leading varieties. We would advise gardeners setting cabbage plants two or three times. Set early varieties in May. Second early or late in June. Late varieties in July.

**Golden Acre.** This is the most popular early variety; matures as early as any other variety. The heads are of good size and perfectly round, solid heads and very uniform and compact, having few outer leaves which permits close planting. We have a very good strain from a reliable grower.

**Early Jersey Wakefield.** A very early pointed head cabbage, compact and erect with few outer leaves, stem short, heads medium sized.

**Charleston Wakefield, or Large Wakefield.** Similar to Jersey except about one week later. Heads larger and not as sharply pointed.

**Winningstadt.** A good early variety. Very sharp pointed heads. Used for early planting and also for planting late in July and August.

**All Head Early.** This is a great cabbage and one of our best sellers. Head hard, slightly oval to flat in shape, one of the most used by kraut packers. We have sold millions of this variety to growers for kraut factories.

**Copenhagen Market.** An extra early, good, round heading, hard cabbage. About one week later than Golden Acre.

**All Head Cabbage**

**Marion Market.** Around heading hard cabbage. Yellows resisting.

**Early Summer.** An early flat head variety.

**Surehead.** A large popular flat head late variety.

**Succession.** A second early, roundish, slightly flat. A solid head variety. A good kraut cabbage.

**Early Flat Dutch.** Similar to Late Flat Dutch except earlier and smaller.

**Glory Enkhuizen.** A hard heading, second early, fine grain. One of the best for kraut.

**Danish Ball Head.** Tall stem. A very hardy sure heading heavy variety which has proven to be one of the best keepers and a desirable variety.

**Danish Round Head.** Short stem. A very good late variety. Heads are not quite as large as the Ball Head. Solid and also a good keeper.

**Late Flat Dutch.** An old standard variety. Enormous flat head. Should be planted early in July as it requires a full season to head hard. This is the best late variety as it heads hard and is the best winter keeper.

**Perfection Drumhead Savoy.** The crumpled leaf variety, producing large heads. Should be planted in June, July or August.

**Red Haco.** An extra early deep dark red.

**Red Rock.** A hard heading red variety and later than the Haco.

Postage prepaid. 25, 20c.; 100, 40c.; 500, \$1.10; 1,000, \$1.75; or by express or parcel post f.o.b. Sewell, in 5,000 lots or more, 1,000, \$1.00; or our farms, 25, 10c.; 100, 20c.; 500, 50c.; 1,000, \$1.00.

## **CELERY**

**Plant June 15th to August 15th**

**Ledden Golden Self Blanching.** The most popular and one of the best of all early varieties. Our stock has produced celery the past few years of unexcelled quality and perfect in growth. Everyone should raise some of this excellent variety.

**Golden Plume.** A self blanching variety developed from Golden Self Blanching. Has been pronounced by authorities to be the best of all the early varieties. Blanches quickly and is a very healthy variety.

**Sanford Easy Blanching.** This is a good variety, comes a little later than Golden Self Blanching and requires longer banking to blanch. Vigorous in growth and a splendid keeper.

**White Plume.** This is a good early celery with beautiful white leaves in center. Blanches pure white. Liked by some better than Golden Self Blanching.

**Giant Pascal.** Grows large size. The leading late variety. Stalks large, thick and solid. Extra good eating celery, very brittle.

**Winter King.** A strong grower, one of the best keepers. Blanches white when banked.

Postage prepaid. 50, 30c.; 100, 50c.; 500, \$2.00; 1,000, \$3.50; or by express or parcel post, f.o.b. Sewell, 1,000, \$3.00; at our farms, 50, 20c.; 100, 30c.; 500, \$1.50; 1,000, \$3.00; 10,000, \$2.50 per 1,000.

## **EGG PLANTS**

**Plants set May 15 to June 30**

**Black Beauty.** For spotting, 1,000, \$3.00, f.o.b. Sewell. Pulled sash-grown, ready June 1st to July 15th. Postage prepaid. Dozen, 25c.; 100, 75c.; 1,000, \$5.00; Spotted egg plants, ready May 20th to July 1st, in 5-inch blocks. At our greenhouses, dozen, 50c.; 100, \$4.00; 1,000, \$30.00. These spotted plants do not carry good by express or parcel post. If you live near enough to come on train, you can carry them in handle baskets or they can be taken in auto or wagon. If you live at a distance and cannot come for them, we advise taking pulled plants.

**Ledden Golden Self Blanching**

**PEPPER**

**Plants set May 10th to July 20th**

**World Beater.** This great sweet pepper wins praise wherever it is grown. A large bush loaded with enormous peppers excellent for slicing or filling.

We grew 18 peppers that filled a basket and took first prize at Granger's Fair at Alcyon Park at Pitman, N. J.

**California Wonder.** A new variety and a very good one, meat very thick, dark green fruit turning to crimson. The heaviest and thickest meat pepper on the market today. Highly recommended.

**Ruby King.** An extra good early variety, heavy cropper. Earlier than World Beater.

**Hot Bull Nose.** An extra good hot, blunt variety. Heavy yielder.

**Tomato or Squash Pepper.** A round sweet variety.

**Long Red Cayenne.** A red-hot variety used for pickling, drying, etc.

Pepper plants for spotting, March 25th to April 25th, f.o.b. Sewell, 1,000, \$3.00.

Pulled sash or field-grown plants ready May 20th to July. Postage prepaid.

Dozen, 20c.; 100, 60c.; 500, \$2.00; 1,000, \$3.50; or by express or parcel post, f.o.b. Sewell, 1,000, \$3.00. At our farms, dozen, 10c.; 100, 30c.; 1,000, \$2.50.

**LETTUCE—Plant May 15th to June 15th**

**Big Boston and Iceberg.**

Postage prepaid, 25, 15c.; 100, 40c.; 500, \$1.25; 1,000, \$2.00; at our farms, 25, 10c.; 100, 25c.; 500, \$1.00; 1,000, \$1.50.

**SWEET POTATO PLANTS—May 1st to June 20th**

**Yellow and Red.** Parcel Post prepaid, 100, 50c.; 500, \$2.00; 1,000, \$3.50; by express or parcel, f.o.b. Sewell, 1,000, \$3.00.

**Farming Tomato Plants Early in May**

Pulling Tomato Plants

**TOMATO**  
**Plants set May 1 to July 30.**

We believe we are the largest growers of Tomato plants in the United States.

Tomato plants are our greatest specialty. We annually supply numbers of canneries and large growers in New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, Ohio, Indiana and Illinois. We have had single orders from canning houses for a million tomato plants.

We give quick service when plants are right size.

We have numbers of testimonials saying "your plants were good and the tomatoes produced from them were the best received at the factory."

These plants are grown from seed treated with Semesan.

**Marglobe.** The leading variety of Tomato. Used as the main crop by almost all large growers. Seventy percent of our sales on Tomato seed is the Marglobe. A second early, solid, very meaty, thick red tomato, heavy yielder; the tomato ripens well up to the stem, making it very desirable for canning, or table use. All of our Marglobe plants are grown from New Jersey State Certified Seed.

**Pritchard Scarlet Topper.** This is the new variety introduced by Dr. Frederick J. Pritchard, of the U. S. Dept. of Agriculture. A heavy yielding early variety, about 10 days earlier than Marglobe. The vines are not as rugged as the Marglobe and do not hold up throughout the season.

**Greater Baltimore.** An extra good main crop red tomato.

**Matchless.** A large extra good market sort. A good tomato for factories that pack whole tomatoes, or good for market. Tomatoes are large, solid and red.

**Improved Stone.** An extra good heavy tomato for canning or slicing.

**Bonny Best.** A second early variety. Tomatoes grow in clusters. This variety is liked by canners that grind their tomatoes for soups or catsups as the tomatoes ripen to stem, also have a beautiful red color when ground.

**Ponderosa.** A large purple tomato. Used for gardens.

**Acme.** An early purple tomato.

**Yellow Plum.** Used for preserving.

We will grow your plants for you from your own seed.

We also have a large quantity of sash-grown tomato plants. Price quoted when these are ready, about May 15th to 25th.

### **TOMATO—Continued**

Tomato plants for spotting ready March 20th to April 20th. Spark's Earliana, Marglobe, Improved Stone, Bonny Best and Greater Baltimore, 1,000, \$3.00, f.o.b. Sewell.

Field-grown tomato plants always give the best satisfaction.

Parcel post prepaid, 25, 20c.; 100, 35c.; 500, \$1.50; 1,000, \$2.00; or by express or parcel post, f.o.b. Sewell, 1,000, \$1.00.

Spotted tomato plants ready about May 10th. Earliana and Marglobe, at our greenhouses, dozen, 50c.; 100, \$3.00; 1,000, \$25.00. These do not carry well by parcel post or express, but can be carried in baskets in auto or wagon.

On one of our farms.—A field of Greater Baltimore Tomatoes growing, two weeks before ripening. Note vigor of vines.

## **ROOTS**

### **ASPARAGUS—Plant March and April**

One or two years are saved by planting roots. A bed 12 x 40 feet requires 100 roots, which would supply a family. 5000 roots to an acre in 4-foot rows.

**Mary Washington**—the best variety. Extra strong roots, 2 years old. Postage prepaid. 100, \$1.25; 1,000, \$8.00; or by express or parcel post, f.o.b. Sewell, 1,000, \$7.00. Special prices on larger quantities.

### **RHUBARB—Plant March and April**

**Victoria.** An extra good market sort with large beautiful red and reddish green stalks. Extra large roots, postage prepaid. Dozen, \$1.25; 100, \$8.00; or by express, f.o.b. Sewell, 1,000, \$35.00. At our farms, dozen, 75c.; 100, \$5.00; 1,000, \$30.00.

## **SEEDS**

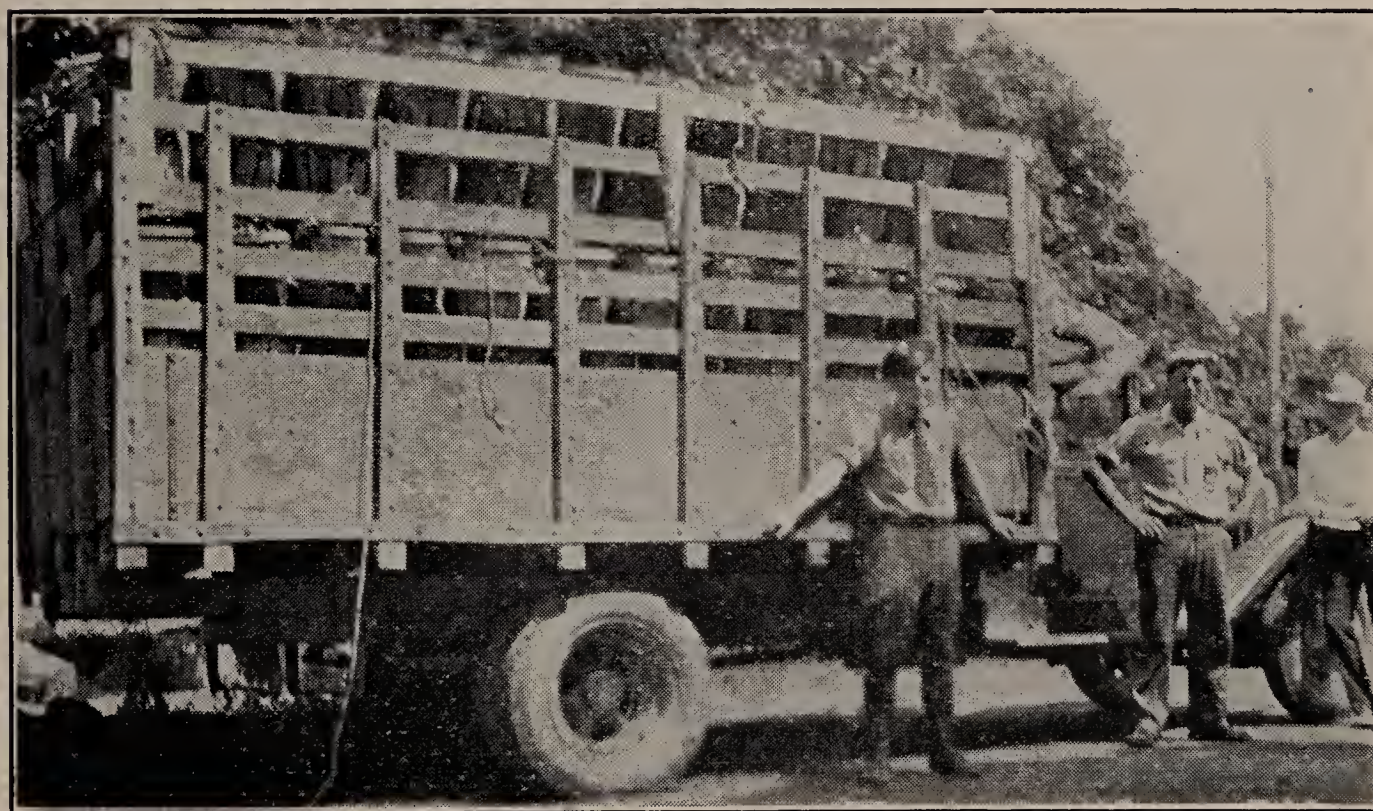

We list 200 of the leading and best varieties of seeds. The greatest care is taken that only the best strains are secured. Our seeds are grown especially for us by the most reliable growers in various parts of the world. We have our seed produced in the section that is best suited for the variety, for example our Lima Beans are grown in California; Bean seed in Idaho; Cantaloupe in Colorado; Corn in Connecticut; Spinach in Holland; Onion sets in Illinois, etc. Contracts with growers are placed twelve to eighteen months before the seed is delivered or before the seed grower plants the seed stock. This is done to secure only fresh and highest quality seeds for our customers.

Orol Ledden, Sr., who has devoted thirty years to the seed business and his entire life as a plant grower, probably is better acquainted with the farming industry and the gardener's problems than any other man in the seed business today. We say this because he was born and reared on a large farm in Gloucester County, New Jersey; his father was a farmer and grew plants and seeds. He owns and operates two large farms and other farmland totaling about three hundred acres. He has experimented with and grew on commercial scale all of the varieties of vegetable seeds listed in this book and is well acquainted with their individual characteristics.

We endeavor at all times to secure the highest quality seeds obtainable and to offer these high standard seeds at minimum prices. No seed that we know is of poor germination or in any way inferior is allowed to be sold.

Prices quoted on Beans, Corn, Onion Sets and Peas are postage or express charges prepaid on quantities up to 15 pounds, quarter bushel or more of these above mentioned seeds is quoted f.o.b. Sewell, N. J. On all other seeds postage express, or freight charges are prepaid by us to your address. This enables our many mail order customers to secure Ledden's Seeds at no extra cost. No charge for packing or package except two bushel seamless bags, which will be charged at 30c. each.

Half ounce sold at ounce rate. Half pound sold at pound rate. Quarter or half bushel sold at bushel rate. When ordering one bushel or more of one variety add 30c for each two bushel for seamless bag.

**Truck load of 200,000 Tomato Plants going to Maryland**

ASPARAGUS—Sow in April

<b>Mary Washington.</b>			5 lb.

**The largest growers of Tomato, Cabbage, Pepper and Celery Plants in N. J.**

This Savage Duster is used for dusting Sulphur, Calcium, Arsenate, Nicotine, Bean Beetle Dust, Bordo and other dry insecticides and fungicides. This duster does a very thorough job, is easily operated and carried. We recommend this duster for control of the Mexican Bean Beetle. **Price, \$18.00. Two Row Attachment, \$3.50.**

**PLATZ "GREEN" HAND DUSTER**  
**New Model**

Light, compact, sturdy, efficient. Capacity: 2-4 pounds. Large powerful bellows. 30-inch extension spreader.

Easy to work and regulate. Practically indestructible—wearing parts can be readily replaced. Excellent for dusting either hill crops or underside of foliage. Handles any dust that can be used in larger outfits. **Price, \$7.00.**

**THE AUTO SPRAY**  
**A SELF-OPERATING AUTOMATIC SPRAYER**

This machine is one of the strongest and most simple in its parts. The pump is locked by means of a sliding cam, which prevents wear, gives long service and renders all parts instantly accessible. Reservoir holds 4 gallons, but should not be over two-thirds full of solution when ready for spraying. About two pumpings will empty the tank, and the operator has only to direct the spray. It can be used in the garden for small trees and shrubs, spraying weeds, spraying cattle or white-washing. It can be carried in the hand or used as a knapsack sprayer.

# Planet Jr. Farm and Garden Tools

SEND FOR SPECIAL TRACTOR CATALOG FOR FULL DESCRIPTION  
AND PRICES

## SEED DRILLS

### No. 3 Hill and Drill Seeder

The Planet Jr. No. 3 is the market gardeners' and truckers' favorite. It saves a lot of time and labor, as well as seeds, and insures a good, uniform stand. Sows in straight drills, at the right depth and thickness; or drops in hills 4, 6, 8, 12 or 24 inches apart. Capacity three quarts. The special force feed is driven directly from the main wheel; there is no lost motion, no chain to skip or "ride"; the agitator must work when the front wheel turns. Can furnish special plow and coverers for onion seed for sets. **Price, \$16.50.**

### No. 300 Drill Seeder

A plate or disc Seeder for all seeds from the smallest up to and including peas, beans and corn. Growers of peas and beans will appreciate this Seeder as it does not break the seed and sows with great regularity. Only three plates each with thirteen holes, making ample adjustment for various seeds. Hopper holds four quarts and is removable, which makes easy filling and emptying. Net weight, 36 pounds. **Price, \$18.75.**

Young Cabbage Plants being farmed on our plant farm with Planet Jr. Tools

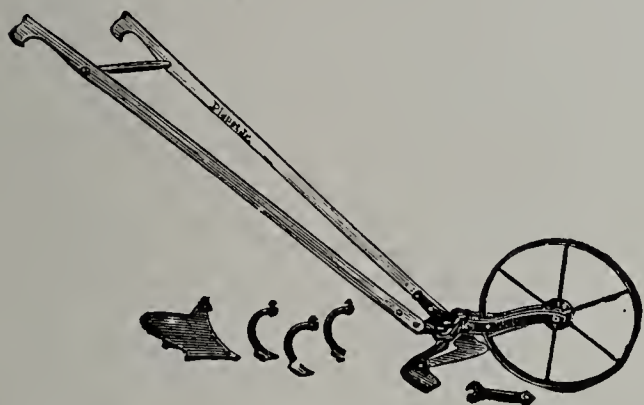

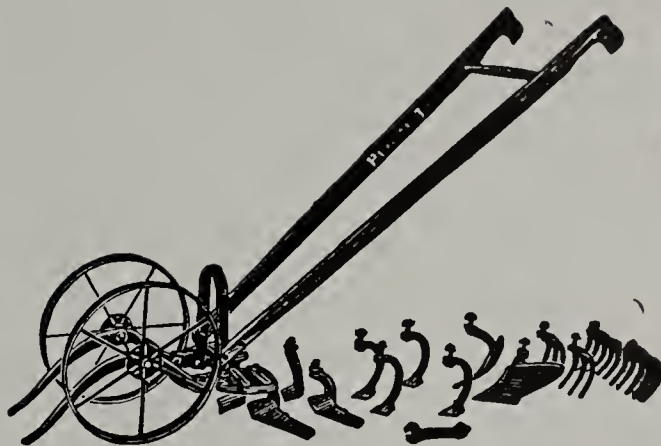

## No. 11 Double and Single Wheel Hoe Combined

The most completely equipped Wheel Hoe offered the market gardener or home gardener. Will do the widest range of work and we recommend it for all large gardens and for farmers and others growing a variety of vegetables.

As a Double Wheel Hoe it straddles the row until the plants are 20 inches high, cultivating both sides at one time. Then used between the rows as a Single Wheel Hoe. Cultivating equipment includes a pair of 6 inch hoes, a pair of 4½ inch hoes, four steel cultivator teeth, one pair of plows, two 3-tooth rakes, two 5-tooth rakes, two leaf lifters. Steel frame; 14 inch steel wheel. **Price, \$13.00.**

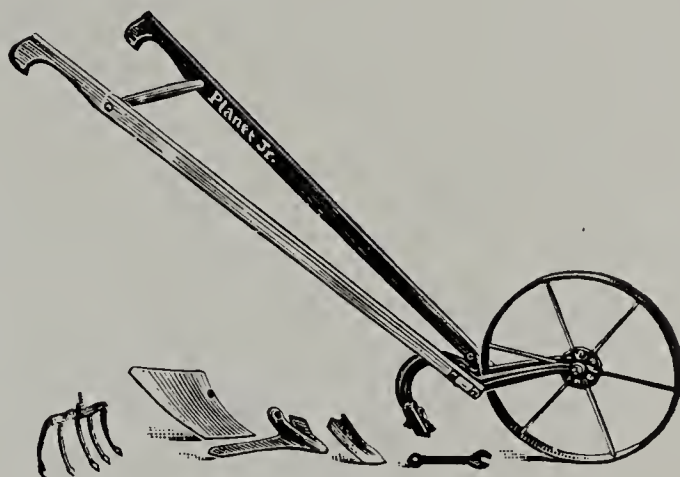

No. 12: Same, less the pair of 4½ hoes and the rakes. **Price, \$10.25.**

No. 13: Same, with only one pair of 6 inch hoes as equipment. **Price, \$7.60.**

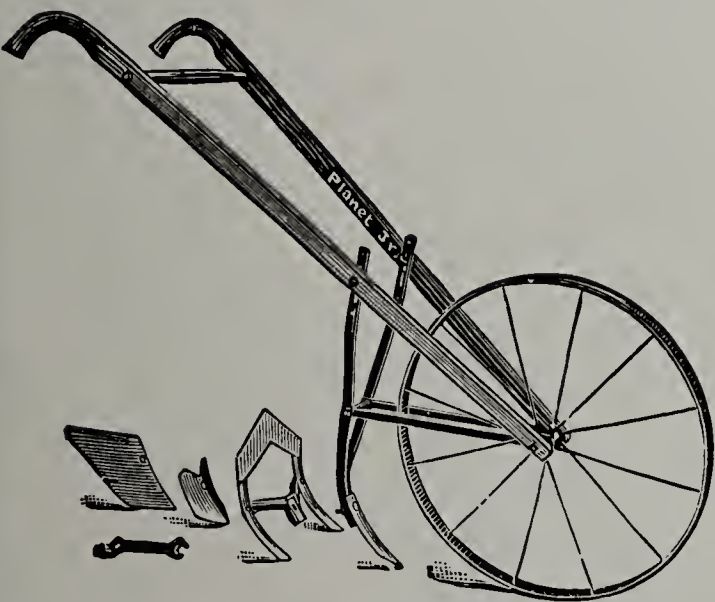

## No. 17 Single Wheel Hoe

The No. 17 is very popular with the home gardener and the market gardener. Equipment includes the attachments that are most frequently used and which are the most valuable. They include a pair of 6 inch hoes, three steel cultivator teeth, and a large garden plow. Frame is of steel; steel wheel is 15 inches in diameter. The No. 17 will do in a few hours work that would require as many days with the old hand hoe. It will pay for itself in a short time. **Price, \$7.35.**

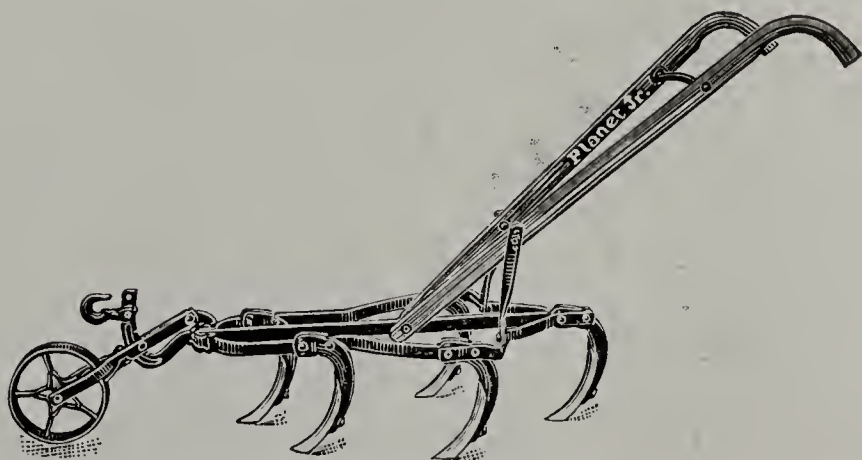

## No. 19 Garden Plow and Cultivator

The No. 19 is a real rugged, built-for-service tool, especially designed for the farmer's home garden and vacant lot farming where an extra strong, all-purpose tool is needed. An inexpensive tool but mighty dependable and effective. Cultivating equipment: One 2-inch cultivator tooth, one 10-inch sweep, one plow, one 5-prong cultivating attachment; 15 inch steel wheel. **Price, \$4.75.**

## No. 119 Garden Plow and Cultivator

For the man who wants a high wheel garden plow and cultivator but who wants, at the same time, Planet Jr. quality. Wheel has ⅜ x ¾ inch steel spokes; 24 inches in diameter. An easy running tool for any garden work but particularly where potatoes, corn, field beans or anything in wide rows must be cared for by hand rather than with a horse. Equipment includes a substantial garden plow; a 1¾ inch cultivator tooth, a 4 inch cultivator tooth, and a combination of a pointed scuffle blade and a two or three tooth cultivator, both on one frame, and reversible. The 1¾ inch tooth shown on cultivator can be attached between the two teeth shown on attachment directly behind. **Price, \$4.00.**

## No. 100 Plain Cultivator

Built to give the best possible results in light sandy soils. The No. 100 is very light and easy to handle and at the same time it is built of the very best material and will last a regular "Planet Jr." life time. We unhesitatingly recommend this machine to all growers working crops on light, sandy soils. Turning shovels and shovel steels may be used. They are furnished as extras. Useful for making furrows; afterwards for covering up; also for plowing and hilling as much or little as desired. **Price, \$8.35.**

No. 100-D: Same, less the wheel. **Price, \$6.75.**

**Planet Jr. specially hardened cultivator teeth, sweeps, hillers, furrowers, turning shovels, bolts, etc., in stock at all times.**
